# MONTICOLOR

---

## BIOSTRAFILO · BIOSTRINGA

Filati **soffici**, voluminosi, leggeri, realizzati con la tecnica di lavorazione a doppio ritorto.

**Cotone organico pettinato**, di alta qualità, risulta aperto e gonfio per dare la massima sensazione di **morbidezza**.

**Maglie corpose** ma **areate**; speciale per punti traforati e strutturati.

Fili **straordinari** che donano il piacere di indossare **capi sostenibili**, freschi che accarezzano la pelle.

---

*Soft, voluminous, light yarns produced with the manufacturing technique of double twisting.*

*High quality organic combed cotton, open and fluffy to offer a feeling of top softness.*

*Substantial but airy knits. Ideal for structured and openwork stitches.*

*Extraordinary yarns offering the pleasure of wearing fresh sustainable garments caressing the skin.*

Composizione: **100% Cotone Biologico Pettinato**  
 Colori a Campione: **Sì da cartella Biocolor Cotton**

**SPECIAL CARES:**

Sono possibili limitazioni nella riproducibilità del tono colore causa uso coloranti compatibili con disciplinare GOTS. I colori di cartella sono da considerarsi indicativi. La nuova versione BIO è realizzata con componenti più fini rispetto agli articoli STRAFILO e STRINGA; questo, oltre alla natura biologica, migliora l'articolo rendendolo più leggero e scolpito. Eventuale uso in alternativa deve prevedere la verifica delle regolazioni macchina e delle taglie.

Composition: **100% Organic Combed Cotton**  
 Customer Colors: **Yes from Biocolor Cotton shade card**

**SPECIAL CARES:**

*Color shade reproducibility might undergo certain limitations due to GOTS regulation restrictions. Shade card colors should be considered just as an indication. The new BIO version is produced with finer components in comparison with articles STRAFILO and STRINGA. This, in addition to the organic nature, improves the product making it lighter and more sculpted. However if the organic version is used in replacement of the non-organic product, we recommend checking machine settings and size measures for possible adjustments.*
