FEEL LINEN

Extrafine Linen, Organic Voile

Version 3.1

MONTICOLOR

FEEL LINEN

Filato in lino naturale **extrafine** e cotone biologico a fibra lunga.
La particolare costruzione **voile** mantiene la bellezza e il movimento del lino, con **scatto vitale** e consistenza piena.

- _ **SUPER-FRESCO**, un finissimo filo di lino è incrociato ad alte torsioni.
- _ **ELASTICO**, il cotone conferisce flessibilità nella lavorazione e recupero naturale delle forme.
- _ **INGUALCIBILE**, la struttura a doppio ritorto elimina le stropicciature tipiche del lino.
- _ **PILLING FREE**, fibre lunghe di altissima qualità filate con lavorazione Hairless.
- _ **SOSTENIBILE**, filato certificato OCS (Organic Content Standard).

Un blend di materie prime eccellenti e tecnologie di filatura e ritorcitura combinate.

Sentire il lino in una moderna dimensione di estrema freschezza e naturalità.

*Extrafine natural linen yarn and long fiber organic cotton.
The particular voile construction maintains the beauty and movement of linen, vital snap and full texture.*

- _ **SUPER-FRESH**, a very fine linen yarn is crossed by high twists.
- _ **ELASTIC**, the cotton content makes the processing easy, natural recovery of shapes and flexibility.
- _ **UNWRINKABLE**, the double twisted structure eliminates the typical linen creases.
- _ **PILLING FREE**, high quality long fibers spun with Hairless technology.
- _ **SUSTAINABLE**, OCS certified yarn (Organic Content Standard).

A blend of excellent raw materials and combined spinning and twisting technologies.

Feel the linen in a modern dimension of extreme freshness and naturality.

Composizione: 50% Lino Extrafine - 50% Cotone Biologico Long Staple
Colori a Campione: Sì

SPECIAL CARES:

Sono possibili limitazioni nella riproducibilità del tono colore causa uso coloranti compatibili con disciplinare GOTS. I colori di cartella sono da considerarsi indicativi. Il filato presenta irregolarità tipiche del lino: si consiglia l'uso a 3 guidafili per attenuare eventuali barrature. Conservare e lavorare i filati con contenuto di lino in ambiente adeguatamente umidificato; il filo secco risulta meno elastico e può causare un peggior andamento in macchina e problematiche qualitativi. Filato soggetto a restringimenti diversi tra colore e colore; verificare prima della messa in lavorazione di ogni partita che le regolazioni delle macchine siano idonee all'ottenimento della taglia desiderata. Le varianti mouliné presentano una distribuzione dei colori irregolare e non omogenea. Queste sfumature/striature sono da considerarsi caratteristiche e non difetto. Per le varianti con la presenza di componente greggio non possono essere garantite la continuità del colore e dell'aspetto da lotto a lotto, pertanto variazioni di tono ed effetto devono essere previste ed accettate dal cliente come caratteristica del prodotto e della sua naturalità.

Composition: 50% Extrafine Linen - 50% Long Staple Organic Cotton
Customer Colors: Yes

SPECIAL CARES:

Color shade reproducibility might undergo certain limitations due to GOTS regulation restrictions. Shade card colors should be considered just as an indication. The yarn shows the typical irregularities of the linen: we advise the use on 3 thread guides in order to reduce possible uneven aspect. It is recommended to store and process yarn with linen content in a properly humidified room. A dry yarn could have less elasticity, worse performance during knitting and qualitative issues. Yarn subject to different shrinkage depending on color; before knitting each lot, we recommend to test machine settings to make sure they are suitable for obtaining the desired garment size. Mouliné variants have an irregular color distribution. This kind of shades/stripes shall be considered a yarn feature, not a fault. For colors with the presence of RAW-WHITE component, continuity of color and appearance cannot be guaranteed from lot to lot, therefore variations in tone and effect must be foreseen and accepted as a characteristic of the yarn naturality.
