Re-Verso™ Grain Cotton

Version 3.0

TERRA

Terra è il primo articolo sviluppato da Monticolor nell'ambito della collaborazione con la filiera **Re-Verso™**.

Cotone riciclato e biologico sono lavorati con una tecnologia di filatura che realizza un **filo lineare**, dalla **texture granulosa, morbido e fresco** al tempo stesso.

Le fibre di cotone riciclato certificato **GRS** sono **pre-consumer**, ottenute sfilacciando ritagli di maglia recuperati dal processo di confezionamento dei capi, scelti con estrema cura per avere garanzia di omogeneità e purezza.

Il cotone **OCS**, selezionato dall'ultra-decennale expertise aziendale nella certificazione del biologico, completa il valore del prodotto che è **total eco-friendly**.

Un filato che come la terra, è semplice, naturale, organico, ha vita e permette di farla crescere in molte forme. Prendiamocene cura.

*Terra is the first product developed by Monticolor in the cooperation frame with **Re-Verso™** value chain.*

***Recycled and organic cotton** are processed with a spinning technology that creates a **linear yarn** with **grainy texture**, soft and fresh at the same time.*

*The **GRS certified** recycled cotton fibres are **pre-consumer**, obtained by fray scraps of knitted fabrics recovered from the process of garment confection, and they are chosen with extreme care in order to have a guarantee of purity and uniformity.*

***OCS cotton**, selected by the long-standing company expertise in certifying organic fibres, adds up to the value of the product, which is **totally eco-friendly**.*

Just like the earth, a yarn that is simple, natural, organic, showing its life and allowing life to grow in many other ways. Let us take care of it.

Re- Verso™ - Circular by Origin

Re-Verso™ è un nuovo approccio produttivo che unisce scienza e tecnologia, al fine di creare un sistema di produzione a **economia circolare** nato dalla collaborazione di primarie aziende specializzate nella lavorazione di cotone, lana e cashmere di alta qualità.

Re-Verso™, da molti anni, raccoglie, seleziona e trasforma **ritagli di maglia pre-consumer** al fine di rigenerarli per la creazione di filati e tessuti per il settore della Moda.

I prodotti **Re-Verso™** rappresentano una **realtà innovativa**, raffinata e portatrice di valori che parla al consumatore contemporaneo.

www.re-verso.com

*Re-Verso™ is a new production approach that blends science with technology in order to create a production system of **circular economy**, born from the cooperation of leading companies that master the processing of cotton, wool and cashmere of highest quality.*

*For several years now, **Re-Verso™** has collected, selected and processed **pre-consumer fabric cuttings**, in order to regenerate them for the creation of yarns and fabrics for the fashion industry.*

***Re-Verso™** products represent an **innovative reality**, sophisticated and bearer of values for the contemporary consumer.*

Composizione: 50% Cotone Riciclato - 50% Cotone Biologico
 Colori a Campione: Sì

SPECIAL CARES:

Sono possibili limitazioni nella riproducibilità del tono colore causa uso coloranti compatibili con disciplinare GOTS. I colori di cartella sono da considerarsi indicativi. Filato riciclato, variazioni di qualità e aspetto tra lotto e lotto ed eventuali irregolarità devono essere considerate caratteristica e non difetto. Per ottenere il miglior risultato di smacchinatura, si raccomanda l'utilizzo a più guidafile.

Composition: 50% Recycled Cotton - 50% Organic Cotton
 Customer Colors: Yes

SPECIAL CARES:

Color shade reproducibility might undergo certain limitations due to GOTS regulation restrictions. Shade card colors should be considered just as an indication. Recycled yarn, variations in quality and appearance from one lot to another must be considered a feature and not a defect. In order to achieve the best knitting result we recommend to knit on more thread guides.
