Certifications

Special Cares

Shade card colors should be considered just as an indication. FINISHING: avoid treatments that, covering the fiber's surface, might inhibit the deodorizing properties of Deocell® (for example water repellents, silicone softeners, resins, etc.). Treatment information available on request.

SPECIAL ATTENTION	
----------------------	--

- The yarn is in compliance with the REACH Regulation (1907/2006).

If this yarn is used for stripes with white or contrasting colors, please specify with the order proposal in order to verify the possibility of doing it.
We recommend to test different colors which can be representative for bulk production. Different colors may require adjustments relating knitting and finishing process.

recommended to check new outcome and se the tightness of needles to adjust possible differences. - No claims can be accepted on knitted panel for more than kg 5 of each dye lot, and in no case on finished garments.

- The RAW-WHITE variant has a different behavior compared to the dyed colors as it didn't undergo the dyeing process and can therefore show variations in shade from one lot to another.

 ⁻ We recommend to test different colors which can be representative for bulk production. Different colors may require adjustments relating knitting and finishing proci - Knitting: please ensure a perfect functioning of the machine. Use of electronic feeded machines is highly recommended. When starting to knit a different batch it is
