MONTICOLOR

Yarn Technical Data Sheet

FRESCOPURO 30/3

Last update: 22.01.2024

Count	Gauge
Ne 30/3 - Nm 3/50	12

Composition
100% Combed cotton

Shade Card
FRESCOPURO-FRESCOFINE 3.0

Description	Colors
Crepe	39

Customer Color
yes solid colors, no melange colors

Availability	Raw
stock service	yes

Kg Minimum
1

Pilling (ISO 12945-1:2002)	Flammability
4	Class 1 - not inflame

Unit Weight (g/m2)	Wastage (%)
210	4

Conventional standard conditioning (%)
8,50

Average applied conditioning (%)
3,00

Suggested International Symbols

End Uses

Tricot

Requirements	Discharge on cotton	Color changing
Color fastness to washing in water 40° (ISO 105/C06)	4	4
Color fastness to dry cleaning (ISO 105/D01)	4	4
Color fastness to acid-basic sweat (ISO 105/E04)	4	4
Color fastness to rubbing (ISO 105/X12)		
Dry	4	
Wet Light	3/4	
Medium-dark	2/3	
Black	2/3	
Melange light	3/4	
Melange medium-dark and grey	2/3	
Color fastness to light (ISO 105/B02)		
Light		3/4
Medium-dark		4

Special Cares

In order to achieve the best knitting result and avoid strikethroughs on the knitwear we recommend to knit on more thread guides. In case of knitting on machines for whole garment, please consider an additional 2% waste.

SPECIAL ATTENTION
- The yarn is in compliance with the REACH Regulation (1907/2006).
- If this yarn is used for stripes, with white or contrasting colors and/or for wholegarment please specify with the order proposal, in order to verify the possibility of doing it.
- We recommend to test different colors which can be representative for bulk production. Different colors may require adjustments relating knitting and finishing process.
- Knitting: please ensure a perfect functioning of the machine. Use of electronic feeded machines is highly recommended. When starting to knit a different batch it is recommended to check new outcome and se the tightness of needles to adjust possible differences.
- No claims can be accepted on knitted panel for more than kg 5 of each dye lot, and in no case on finished garments.
- The RAW-WHITE variant has a different behavior compared to the dyed colors as it didn't undergo the dyeing process and can therefore show variations in shade from one lot to another.
