### Certifications

#### **Special Cares**

In order to achieve the best knitting result we recommend to knit on more thread guides.

SPECIAL ATTENTION

- The yarn is in compliance with the REACH Regulation (1907/2006).

- If this yarn is used for stripes, with white or contrasting colors and/or for wholegarment please specify with the order proposal, in order to verify the possibility of doing it. - We recommend to test different colors which can be representative for bulk production. Different colors may require adjustments relating knitting and finishing process. - Knitting: please ensure a perfect functioning of the machine. Use of electronic feeded machines is highly recommended. When starting to knit a different batch it is

recommended to check new outcome and se the tightness of needles to adjust possible differences - No claims can be accepted on knitted panel for more than kg 5 of each dye lot, and in no case on finished garments.

- The RAW-WHITE variant has a different behavior compared to the dyed colors as it didn't undergo the dyeing process and can therefore show variations in shade from one lot to another.
